

Stainless steel milk can, 40 liters

Product information "Polished stainless steel milk can 40 liters, leakproof"

High quality milk cans made of stainless steel. The material is nearly indestructible and due to the hardness of the used material almost shock proof and shock resistant. Stainless steel milk cans are ideally suited for transporting and storing food. Of course they would also do an excellent job storing other liquids when a food grade container is needed. The locking lid with the gasket will eliminate loss of liquid if the can tips.

Product Specifications:

- mushroom lid made of stainless steel included
- integrated rubber seal in the lid. The milk can is leakproof
- clips for fixing the cover on the milk can
- 2 carrying handles made of stainless steel
